ALKERMES PATHWAYS RESEARCH AWARDS®

support the next generation of researchers working to advance our understanding and awareness of alcohol use disorder (AUD), opioid use disorder (OUD), schizophrenia, and bipolar disorder.

In its fourth year, the Annual ALKERMES PATHWAYS RESEARCH AWARDS® Program will support projects focused specifically on AUD, OUD, schizophrenia and bipolar disorder.

Open to Junior Investigators committed to advancing research in AUD, OUD, schizophrenia or bipolar disorder. The annual Alkermes Pathways Research Awards® program provides an individual grant amount of up to \$100,000 per project. Research projects are funded by Alkermes, and an independent Review Committee evaluates and selects recipients.

IMPORTANT DATES:

September 13, 2021 – Application period opens

November 12, 2021 – Deadline to submit proposals

Alkermes Pathways Research Awards® program grants will be awarded to researchers who have demonstrated a commitment to AUD, OUD, schizophrenia or bipolar disorder research.

Eligible applicants must meet the following criteria:

- Have an M.D., Ph.D., or equivalent
- Affiliated with a medical or research center within the United States at the time of application
- Within 5 years of initial academic appointment (e.g., assistant professor) or current postdoctoral fellow
- Research focuses primarily on furthering our knowledge of AUD, OUD, schizophrenia or bipolar disorder
- Have a research mentor with extensive experience in the field of AUD, OUD, schizophrenia or bipolar disorder
- Have not received a DP2 award or an NIH R01 grant at the time of award
- Willing and able to accept funding from a for-profit pharmaceutical company
- Able to complete the proposed research within 2 years
- Citizen or permanent resident of the United States or holder of a temporary non-immigrant visa that is valid for the duration of the 2-year grant period

Areas of Scientific Interest:

- Preclinical*, clinical, translational and epidemiological research
- Research on treatment and patient-centered outcomes
- Clinical and health economic outcomes using real-world data
- Outcomes research supporting continuity of care utilizing telehealth or other technology-based approaches
- Research addressing health disparities and advancing health equity

**Please note that we are not accepting preclinical applications for the 4th annual application cycle for AUD or OUD awards.*
