

1/22/2007	Fernald Medical Monitoring Program		Sort Code
	Pap Smear Coding		
<u>Specimen Type</u>			
VG	Vaginal smear		1
CV	Cervical or endocervical smear		2
OT	Other		3
PLEASE NOTE THAT ALL CODES FOR PAP SMEARS MUST RANGE FROM 600-699. PLEASE DO NOT ASSIGN NUMBERS OUTSIDE THAT RANGE FOR PAP CODES.			4
			5
Findings			6
Code	Description		7
603	Fresh or old blood present		8
641	Fresh or old blood present		9
604	Suboptimal/unsatisfactory specimen		10
605	Artifact present		11
606	Obscuring inflammation present		12
607	Negative/Normal within normal limits)		13
695	Repeat Pap		14
			15
610	Negative for intraepithelial lesion or malignancy. No significant epithelial alterations present		16
611	Endocervical cells are present		17
613	No endocervical cells present		18
690	Atrophic smear		19
668	Presence of endocervical/ transformation zone component		20
669	Endometrial origin		21
			22
608	Moderate cytolysis		23
633	Excessive cytolysis		24
			25
612	Squamous atypia - benign		26
614	Atypical squamous metaplasia		27
617	Squamous atypia		28
696	Squamous metaplasia cells Are present		29
694	Tubal metaplasia (of endocervical cells)		30
628	Anucleated Squamos cells		31
649	Preneoplastic process		32
664	Atypical glandular cell abnormality		33
667	Actinomyces		34
			35
616	No atypical cells present		36
629	Atypical cells present in cervix		37
624	Atypical cells - inflammatory process		38
609	Reactive cells present (Reactive cellular changes present)		39
663	Few glandular cells present in smear		40
			41
618	Mild dysplasia		42
619	Severe dysplasia		43
620	Mild inflammation		44
621	Moderate inflammation		45
622	Severe inflammation		46

Code	Description		7
636	Moderate dysplasia		47
671	Inflammatory cell changes		48
698	Benign cellular changes		49
			50
632	Follicular cervicitis		51
645	Follicular vaginitis		52
625	Atrophic cervicitis		53
631	Atrophic vaginitis		54
626	Reparative epithelium (Reparative changes)		55
			56
623	Numerous neutrophils		57
627	WBC's present		58
			59
630	Hyperkeratosis present		60
629	Parakeratosis present		61
602	Parakeratosis		62
			63
635	Multinucleated histocytes present		64
628	Anucleated squamous		65
640	Endometrial cells are present		66
			67
661	Bacteria present/ Bacterial vaginosis		68
650	Candida species present		69
651	Gardnerella present		70
652	HPV (Human Papilloma Virus) infection		71
653	Herpes infection		72
657	Condyloma present		73
656	Trichomonas present		74
658	Fungus		75
659	Cocci present		76
662	Suggestive Chlamydial infection		77
675	Shift in flora		78
676	High grade squamous intraepithelial lesion		79
677	Endometrial cells in a woman >40yrs of age		80
678	Recommend HPV/ DNA testing		81
679	Limited by air-drying		82
			83
654	Estrogen effect		84
655	Hormonal pattern normal		85
615	Post-partum pattern- endocervical cells can't be determined		86
			87
676	High grade intraepithelial lesion		88
634	Low grade intraepithelial lesion		89
660	Squamous intraepithelial lesion		90
670	Squamous Cell CA		91
663	Carcinoma in-situ present		92
			93
665	Degenerative changes		94
666	Epithelial cell abnormality		95
601	Few granular cells present		96
647	Recommend colposcopy		97
648	Recommend biopsy		98
674	Tissue studies		99
			100

Code	Description		7
672	Limited by insufficient patient history		101
697	Limited by scant cellularity/ Low cellularity		102
699	Recommended repeat smear after treatment		103
673	Limited by obscuring bacteria		104
637	Dysplastic cell changes/ Dysplasia		105
638	Inflammation present		106
639	Malignant tumor cells present		107
642	Endometrial adenocarcinoma		108
643	Hyperkeratomized squamous cells present		109
644	Dyskeratosis		110
645	(Close) clinical follow-up/ Clinical Correlation		111
			112
Physician's Initials			113
BXN	Blake Nestok		114
BXW	Bruce Werness		115
CLP	Carl L. Parrott		116
CXI	Craig Isenhardt		117
CXW	Cindy Westermann		118
FXL	Frederick Lucas		119
GMR	George M. Rupp		120
GXW	George Wadih		121
HHF	Honorah Favorito		122
JXB	John Bishop		123
JXD	James Devitt		124
JXM	Jose Mira		125
JXS	Joanna Salisbury		126
JXV	John Vago		127
MXN	M. Nazek		128
MXN	Mohammed Nazek		129
ROB	Rondalo Brubaker		130
RXB	Ronald Brubaker		131
RXY	Rawia Yassin		132
SAD	Sam Davis		133
SXB	Susan Brokaw		134
SXH	Simon Hakim		135
TRS	Toni Robinson-Smith		136
TXC	Tito Cavallo		137
VXS	Veena Shendy		138
