- Epic Upgrade Coming May 22 - Research Updates
- UC Health One Touch
- ResearchMatch Newsletter
- Upcoming Events
- Resources For Our Research Community
- Updated Contact List

Studies of the Month:

Cincy BEARCAT Study

The Cincinnati Biorepository to Enhance the Acute Resuscitation of Cardiac Arrest Patients

What

The purpose of this study is to understand why people have sudden cardiac arrest, which is an unexpected interruption of normal heart and lung function.

Who

People of any age who experience a sudden cardiac arrest outside the hospital.

Details

While treating this disease, 9-1-1 responders may draw a small amount of blood for study purposes. If you have any questions, contact study staff by calling 513-558-3301 or email cincy-bearcat@uc.edu.

01-22 IRB # 2021-0943

Major Depression Study

Non-Invasive Spinal Stimulation Study

What

The purpose of this study is to evaluate whether the use of a small electrical current applied through the skin is useful and safe in the treatment of adults diagnosed with major depression. Participation will last approximately 8 weeks and involve visits to the research center three times per week.

Who

Adults ages 18–55 who are currently moderately depressed for at least 1 month. Not currently on medication treatment for depression.

Pay

Eligible participants will be compensated up to \$250 for their time and travel.

Details

For more information, contact Brian or George at 513-536-0707 or visit www.LCOH.info and fill out a pre-screen questionnaire. Located at the Lindner Center of HOPE in Mason, Ohio.

06-18 UC IRB # 2017-7424

UC IRB Number Requirement for Clinical Trial Contract Submissions :

Effective 5/9/2022, a UC IRB number will be required when submitting clinical trial contracts. There are several reasons this identifier is being required when a study is submitted to REDCap. The UC IRB number in REDCap will be used to further strengthen study identification across collaborative teams and will help support the UC IRB in some of their internal processes. The information required to generate a UC IRB number is minimal and the pre-submission information can be edited as more information becomes available.

This change may require minor adjustments to departmental start-up processes. If your team has not historically created UC IRB numbers this early in start-up, please make sure to account for how this will affect other regulatory processes within your department.

Epic Upgrade Coming May 22 - Research Updates:

New Research Participant Banner to Replace Beaker Icon

A new Research Participant banner (circle 1 in the below image) replaces the beaker notification icon in Storyboard to help identify whether a patient is associated with a research study. Additionally, if you have access to view or edit a patient's research study, you can now also see a summary (circle 2 in the below image) of their studies when you hover over the status line. This update will not change enrollment and association workflows.

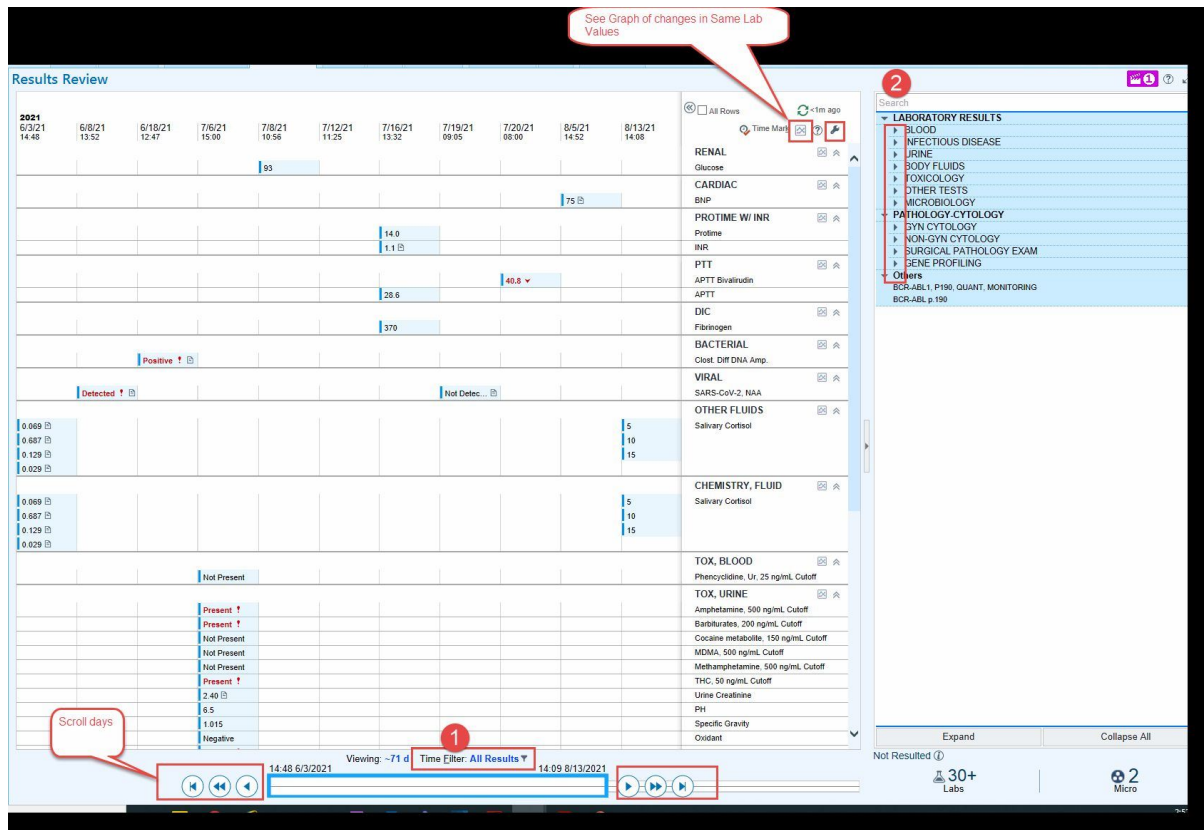

The screenshot shows the Epic EHR interface for a patient named Ruth Arms. The patient's profile includes demographic information and a 'Research Participant' banner (circled 1). Below the profile, the 'Active Studies' section (circled 2) displays a table of research studies.

Study Name	Principal Investigator	Status	Study Code	IRB #	NCT #
FS RESEARCH STUDY - CHRONIC PAIN	Md Investigator Research, MD	Enrolled	108	108	132465798

Results Review Changes

The Results Review's tree and row labels now appear on the side of the screen where more recent results appear. For example, if you view new results on the right and move left through the table to see older results, the tree and row labels always appear on the right.

Access Slides and Upcoming OneTouch Training for Key Changes

Please review these [slides detailing key changes for Epic Research users](#). Training will also be made available via OneTouch, to be announced closer to the May 22 upgrade.

UC Health One Touch:

Since the recent launch of Oracle One Touch/Learners, the Office of Clinical Research has been experiencing challenges including login issues for research affiliates and issues with training modules not loading properly in the system. UC Health Human Resources and IS&T Service Desk have been made aware of these issues and are working diligently to resolve these problems. In the meantime, please see below for information that may be useful in avoiding delays:

- [Guidance for logging into One Touch](#)
- When logging in to One Touch your username is **UID#@uhealth.com**.
- When logging in to One Touch your password is **Uc** (capital U, lowercase c) + **last three digits of SSN + DOB (00/00/0000)**, i.e. Uc84505081992.
- When contacting the IS&T Service Desk, always have your EIN# handy as an identifier for verification purposes.
- Check your UC Health email for UC Health updates, One Touch updates, newsletters, and other important information.

If you have any technical issues with the modules (login, password, and/or software issues), please contact UC Health Service Desk at 513-585-MYPC. Please contact [Sheree Sims](#) with any other questions.

ResearchMatch Newsletter:

Read the newest quarterly [ResearchMatch newsletter](#) for tips for crafting effective recruitment messages when using ResearchMatch. The newsletter also features helpful resources and educational opportunities. Please [contact Miranda Gulasy](#) for assistance with ResearchMatch.

Upcoming Events:

First Friday: 5/6/2022

9:00 - 10:00 am

Virtual Meeting

[The Training and Roles of Infectious Disease Pharmacists](#)

Lunch & Learn: 5/19/2022

12:00 - 1:00 pm

Virtual Meeting

[Investigational Imaging Services \(IIS\)](#)

Clinical Research

Managers Meeting: 5/27/2022

9:30 - 10:30 am

Virtual Meeting

Resources For Our Research Community:

UC OCR Bearcats Landing Site

Please check out the [UC Office of Clinical Research site](#) on Bearcats Landing! The goal of this site is to serve as a centralized resource for the entire clinical research community. Use our new site as a way to learn about UC OCR news and events, access tools and services, and much more!

Visit Bearcats Landing by entering my.uc.edu into your web browser (UC login required). If you have questions about Bearcats Landing, please visit the [Bearcats Landing FAQ page](#).

Increase Awareness of Your Clinical Trials with HighEnroll

The High Enroll App is available to assist your recruitment efforts. Would you like to have more clinicians looking for potential subjects? Would you like to share information about your studies with colleagues inside and outside of UC? The High Enroll mobile app is available to solve recruitment problems such as these. This tool allows your entire recruiting portfolio of studies to always be updated and available on the phone of everyone who is involved in patient care. A trial summary, inclusion and exclusion criteria, other pertinent study information, and a “one-touch” contact button for the primary research coordinator is available for each study loaded onto the platform.

The app is available for any healthcare provider to download by scanning the QR code above or by searching High Enroll, LLC on the App Store or Google Play

Download the app today and earn Starbucks credits when you create your account!!!!

For more information on how to get your studies on the app, please reach out to Ginger Conway at 859-992-5339 or gaconway@highenroll.org.

Access and Authorizations: Updated Appendix A

Click here for an updated [Appendix A](#) for the Access and Authorizations process. [Appendix B](#) and [Appendix D](#) remain the same. The process continues to be the same, but all researchers, volunteer or paid, should use the newly updated Appendix A. Please reach out to Research-Credential@uchealth.com with any questions.

GreenPhire ClinCard Training Video

Greenphire has developed a [ClinCard Training Video](#) for new users. The video link will be added to the REDCap request form as well as the OCR SharePoint site. We hope this video will be helpful when onboarding new users and serve as a valuable resource for current users. If you have any questions, please contact UCH-Greenphire@uchealth.com.

CCTST Online Educational Library, CTRonline

[CTRonline](#) offers an array of clinical and translational research training modules and event recordings. All videos are free and open to any learner looking for a brief introduction to (or a refresher on) specific research topics.

ResearchMatch Online Training Thursday, May 12, 2022 2:00-3:00 PM

ResearchMatch offers free, online training for anyone in the research community interested in learning how to use ResearchMatch as a recruitment tool. This training will teach you how to get started and will share tips for ensuring that your experience with ResearchMatch is successful, including defining your demographics and key terms.

Register here: [ResearchMatch Researcher Training](#).

Updated Contact List:

Director: Maria Stivers (Maria.Stivers@uchealth.com)
Manager: Zak Johnson (Zachary.Johnson@uchealth.com)
Budgets: Heather Roberson (Heather.Roberson@uchealth.com) & Macy Michael (Macy.Michael@uchealth.com)
Coverage Analysis: Heather Roberson (Heather.Roberson@uchealth.com) & Macy Michael (Macy.Michael@uchealth.com)

Join the Mailing List:

We have moved our mailing list to an electronic system. New staff or faculty that wish to join the mailing list can now click the button here or on the OCR website to join.

If you received this newsletter, you are already on the list. No need to re-join, but we encourage you to share with your colleagues, especially those new to UC Health and UC.

Sign up to receive communications from the UC Health Office of Clinical Research on the topics of new SOPs, education sessions, news, events and information geared towards the UC/UCH Research Professionals community.
